- ❑ **Content filtering ensures a family friendly Internet service by blocking adult web sites**

- ❑ **Monitor Internet utilization through comprehensive reports**

- ❑ **Access code API for PoS and PMS applications**

- ❑ **Remote access and configuration**

- ❑ **Configuration backup and restore**

It is becoming commonplace for dental and medical practices to offer wireless Internet in waiting rooms, for patients who bring their iPhones®, iPads, laptops, netbooks and Blackberries®.

Our products provide a simple yet extremely secure solution for any medical practice that wants to offer Internet for patients. Data theft risks from hackers and illegal file sharers are eliminated. Brand your WiFi Hotspot by creating a custom login page that links to your practice web site and advertises your services.

An Internet hotspot can put your practice at risk. Protect your patents information from hackers and data thieves.

Security

|	
🚫	**PCI compliant firewall: protects your business computers from data theft**
